

Careers Programme Guidance

A careers programme provides young people with the information, advice, and guidance they need to make informed decisions about their future educational, career paths and life beyond school.

It is a structured approach to career development that helps students explore their interests, identify their strengths, and connect their learning to potential career options and post school experiences. This guidance document outlines how the programme is developed and supported.

Who	What	How
Stocklake Park Staff – internal Teachers Team Leaders Curriculum Leads Senior Teaching Assistants Teaching Assistants Speech and Language therapists OT – occupational therapist Physio therapists Music Therapist Careers Development Lead Governors Safeguarding Team Family Liaison Officer	Careers and vocational education program / curriculum Raise awareness of options Raise aspirations Address misconceptions Market labour Careers information	Specific curriculum activities Cross curricula learning activities Practical tasks Visits and visitors – job role related, Post 16 and Post 19 options – encounters with employers and employees Whole school assemblies Key stage assemblies Internal work experience Organised external work experience placements Record of Achievement Annual Review EHCP Curriculum Vitae Face to face Presentations Talks - Q&A Sensory exploration Vocational Sensory Stories

Official Personal Guidance		
At present, students at Stocklake Park School have not and are not receiving personal guidance from a Level 6 qualified Advisor, however we are exploring routes to make this possible.
